TUESDAY EVENING, FEB. 15, 1910.

Origin of Tory.  
Sir Walter Scott's explanation of the origin of "tory" as "give me" is not quite the same as that of other inquirers. According to a high authority, the word is Irish for a "pursuer" and was at first given to moss troopers, who for their own villainous purposes pretended to be on the side of the crown and the constitution and the rights of property and in that disguise haunted the bogs of Ireland, robbing the inhabitants in the name of the king. About 1680 those who "contended for the extreme prerogatives of the crown" had this contemptuous term applied to them by their opponents, and thus we arrive at the meaning of today. Macaulay points out as a curious circumstance that "whig" and "tory" originally applied as a term of insult should so soon have been assumed with pride. An odder circumstance is that two great English parties should have taken their titles the one from the bogs of Ireland and the other from the lowlands of Scotland.—London Times.

Gilbert Islands Tiptoe.  
Neither tea nor coffee is drunk in the Gilbert Islands, but liquor named kafee, or toddy. It is the juice of the coconut tree, from which it is drawn daily at sunrise and sunset. To obtain it the natives climb up the tall trees and while extracting it keep up a constant yelling to let those below know that they are at work. The sap when fresh is a harmless and delicious beverage, but after it has been kept a day or two fermentation sets in and it becomes intoxicating. Kafee does not, however, fly to the head, but a man who drinks it to excess loses the control of his legs. However, when this befalls a native he has sense enough to remain indoors and shows his face to no one, for if his chief should ever hear of it he would be tried and sentenced to hard labor and a heavy fine. In former days a native found intoxicated was tied to a tree and received a hundred lashes, the blood fairly streaming down his back. Besides this, all his lands were confiscated to the king forever.

Didn't Call Him Names.  
Mickey's mother visited a young schoolteacher on the east side the other day, says the New York Sun. As nearly as she could make out from the mother's splutterings the teacher had been calling Mickey "names" that no lady would use and no decent mother would stand for. The teacher thought hard, but could not recall no time when she had given way to an impulse to call Mickey dreadful names. "Sure but you did," insisted the mother. "I don't know what you mean by it, but scurvy elephant is no nice name to call a boy. That's what he said you called him—a scurvy elephant." "Scurvy elephant! No," said the teacher in a relieved voice; "I didn't call Mike a scurvy elephant. I called him a disturbing element, and I repeat my statement." Mickey's mother went home partially satisfied, but not quite sure that the teacher hadn't been calling her names too.

To the Highest Bidder.  
Even tobacco buyers have their troubles. One of them, who represents a New York house, met a Connecticut man who had sold his crop. The buyer was amazed at the price the man said he had received. "You have been cheated," said he. "You are entitled to more money than that." "Well," replied the farmer, "nothing has been paid to bind the bargain." "Then I'll give you 5 cents more a pound and a bonus of \$100 for the crop." "Agreed," exclaimed the farmer, and he received a check for the full amount. "Oh, by the way," observed the buyer, "who was my rival in this transaction?" He was informed. "I might have known it," said he sadly. "That man is my partner."—New York Press.

The Code of Hammurabi.  
The so-called "code of Hammurabi" was brought to light during the excavations on the site of Babylon and is looked upon as being one of the very oldest if not the oldest of all known records. It is believed to be at least 1,000 years older than the Mosaic law. King Hammurabi reigned over Babylon about the year 2300 B. C., and the laws he inscribed on the clay tablets for the most part no doubt long antedate that time. The Mosaic law is supposed to have been given to Israel about 1200 B. C., and it would appear, therefore, that the Hammurabi code has the much greater antiquity.—New York American.

Witness My Hand.  
In the early days only a few scholars knew how to write. It was then customary to sign a document by smearing the hand with ink and impressing it upon the paper, accompanied by the words, "Witness my hand." Afterward the seal was introduced as a substitute for the hand mark and was used with the words above quoted, the two forming the signature. This is the origin of the expression as used in modern documents.

The Nearest He Ever Came to It.  
"Colonel," she asked, "have you ever been up in a balloon?" "No," he answered, "but I got to talking at a Boston lady once, and she had me away up in the air inside of two minutes."—Exchange.

Persevering mediocrity is much more respectable and unspeakably more useful than talented inconstancy.—Hamilton.
